CROP CONDITIONS (By Associated Press.)

NEW YORK, July 28.—Bradstreet's cotton reports and fall trade advices are more uniformly favorable than in any preceding time.

Reports from the cotton growing sections of the South are generally favorable, and a volume of wholesale and retail trade is reported.

Reports from the clothing lines and from lumber, hardware and other building material are generally favorable.

What has helped collections and developed a little more activity in the building of the South.

The iron trade shows some quietness after the exceptional activity in pig iron last week.

PRICES GOING UP; MARKET BROADER

Movement Contingent Largely Professional, With Evidence of Manipulation.

QUIETER IN THE AFTERNOON

Effort of Secretary of Treasury to Stimulate Bank Note Issues.

NEW YORK, July 28.—The creeping upward movement of prices, which has been in progress for several days, flared up into a flash of speculative spirit today and the stock market was broader and more animated than for a considerable time.

In the afternoon there was a decided falling off in activity, and some profit-taking in pursuing the holdings acquired in the early part of the day. The upward movement was not explained by any immediate event, and seemed to result rather than a crystallization of confidence, which has been gathering from day to day.

The movement continued largely professional, and there was evidence of manipulation here and there in the volatile rise of closely-held stocks. Delaware, Lackawanna and Western was conspicuous for an advance to a new record price at 64 1/2.

Attention was attracted to the effort of the Secretary of the Treasury to stimulate bank note issues by receiving Philippine bonds as security for gold. \$5,000,000 of bonds, provided the government bonds released are used to take out circulation.
